

Dimension (L x W x T)	1800 X 600 X 50 mm
Galv steel	1,5 mm
Weight/panel	17,7 kg
Weight/m ²	16,4 kg
Dynamic stiffness	9 MN/m ³
Compressive strength	20 kPa
Thermal conductivity	0,035 W7m K

Floating floor panel is easy and quick to install directly on the steel deck. The floor insulates the hull vibrations efficiently in accommodation areas. Carpets can be glued directly to the floor and fixing of furniture is easily done.

The floating floor panels are made of 1,5 mm galvanized steel sheets. The rigid glass wool slab has excellent sound absorption and insulation properties. The panel systems are supplied with a full range of fixing and edging profiles.

Our products are tailor-made for each specific project.
